Ajax Building Corporation Opens Atlanta Office

(ATLANTA, GA) – March 15, 2010 – Ajax Building Corporation, a leader in construction services with more than 52 years in business throughout the Southeast, has announced the opening of an Atlanta office — the company’s eighth location and the first outside Florida.

“A growing presence in Georgia made the office an exciting necessity,” said Ajax President Bill Byrne. “This enables us to better serve our clients in the region and to reach out for new opportunities to build cost-effective and high-quality projects with lasting value.”

Ajax recently was selected to build the \$9.2 million Campus Center at the College of Coastal Georgia in Brunswick. Designed in the Spanish Mission style, it will set the tone for architectural identity as the college transitions to accommodate both commuter and residential students.

A family-owned company with headquarters in Tallahassee, FL, Ajax is recognized for its expertise in construction management, design-build and program management of educational, healthcare and commercial facilities, as well as other public and commercial buildings. Ajax also is dedicated to building sustainable and high performance facilities — from design to construction and operation — and has more than two-dozen Accredited Professional LEED (Leadership in Energy and Environmental Design) credentialed employees on staff.

The Atlanta office is located at 235 Peachtree St., NE, Suite 400 and can be reached at 404-287-2388. Ajax also maintains Florida offices in Tallahassee, Jacksonville, Gainesville, Orlando, Tampa, Ft. Myers and Port Charlotte.
